The Republic of China (ROC) established diplomatic relationship with the Holy See in 1942. The cordial relations between the two countries last till today; albeit all the other European countries having switched their recognition from Taipei to Beijing. Why does the Holy See maintain this unique position in Europe?

Saint of the Week: St Teresa of Jesus

Saint Teresa of Ávila, also called Saint Teresa of Jesus, baptized as Teresa Sánchez de Cepeda y Ahumada (28 March 1515 – 4 October 1582), was a prominent Spanish mystic, Roman Catholic saint, Carmelite nun, author, and theologian of contemplative life through mental prayer. Active during the Counter-Reformation, she was a reformer in the Carmelite Order of her time; the movement she initiated, later joined by Saint John of the Cross, eventually led to the establishment of the Discalced Carmelites, though neither she nor John were alive when the two orders separated.

In 1622, forty years after her death, she was canonized by Pope Gregory XV, and, on 27 September 1970, she was named a Doctor of the Church by Pope Paul VI. Her books, which include her autobiography (*The Life of Teresa of Jesus*) and her seminal work *The Interior Castle*, are an integral part of Spanish Renaissance literature as well as Christian mysticism and Christian meditation practices. She also wrote *Way of Perfection*.

After her death, Saint Teresa was considered a candidate to become a national patron saint in Spain. A Santero image of the Immaculate Conception of El Viejo, said to have been sent with one of her brothers to Peru, was Canonically crowned by Pope John Paul II on 28 December 1989 at the Shrine of El Viejo. Pious Catholic beliefs also associate Saint Teresa with the Infant Jesus of Prague with claims of former ownership and devotion.

Quote of the week:

"Accustom yourself continually to make many acts of love, for they enkindle and melt the soul"
